

# CON-TATTO

## INVOLVEMENT SEEDS FOR MY INNOVATIVE SCHOOL

### TEAM

We're a meeting of stories and people, bringing multidisciplinary and multiplicity of looks.

We share a solid passion:

**everyone's WELL-BEING at school!**

### COOPERATIVE LEARNING

**Thematic workshops with class groups.** Class groups are the heart of relational dynamics, growth and knowledge of oneself and others.

### PSYCHOLOGICAL LISTENING DESK

It's a neutral place for listening and welcoming children, parents and teachers. **It's an attentive space for children to freely talk about their efforts and concerns,** a place of discussion and sharing for parents and teachers on situations and issues that they live and they care about.

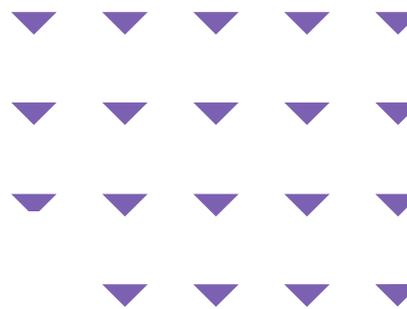

# DEALINGS WITH FAMILIES

Proposals for **training and information meetings** to renew the "I care" community pact. It's a way to face together the complexity of parenthood educational challenges.

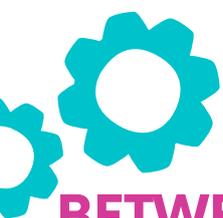

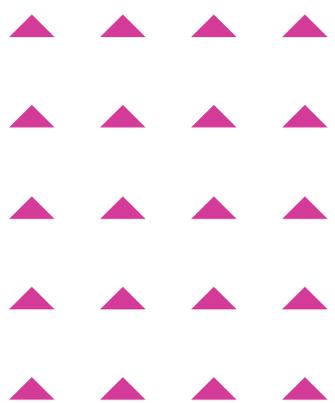

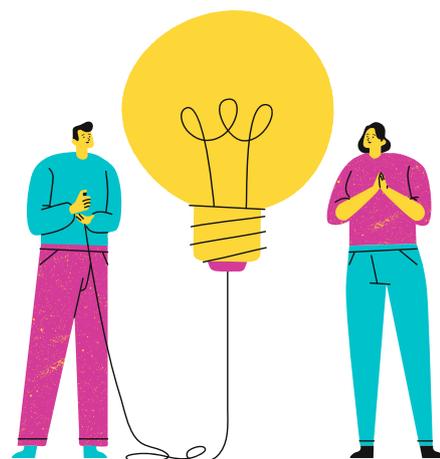

# SUPPORT FOR TEACHERS

It's a space for a structured dialogue towards **shared interpretations of complexities**. It aims at identifying effective, participatory and generative strategies for intervention and change.

# INNOVATION

Support for the **experimentation** at school of Advocacy, Participatory Interview and Family Group Conference. We protect the **right to be listened to** and the right **to be involved** of boys and girls.

# BETWEEN SCHOOL AND WORK

It's important to take on early school leaving, passivity and demotivation, and **work all together to prevent school drop-out**.

# COMMUNICATION IN ACTION

For further information **ASK YOUR SCHOOL TEACHERS!**

We can keep in touch even at a distance:  
find us on Facebook **@contatto4.0**
